

DYNAMO DOWNDRAFT TABLE GUIDE CARTRIDGE SERIES DDC-XXXX

A division of Air Cleaning Specialists, Inc.

Cartridge Filter Tables

Dynamo Cartridge Series Tables feature a "Jet Pulse" pushbutton cartridge cleaning system. Standard cartridges are an 80/20 media (nanofiber also available) which clean at a 99.95% capture rate at 0.5 micron. As dust is captured and collected on the filter, the "Jet Pulse" cleaning system sends a burst of air through the filter, pulsing the collected dust off the filter and into the dust tray below it. These units may also be fitted with an auto-cleaning timer to clean the filter automatically at certain intervals. These tables also feature a thick wooden top with a non-slip surface. NOTE: these tables are not to be used with any spark-generating applications.

Available Sizes

MODEL #	SIZE	MOTOR/HP	CFM	Casters	Sound Level
DDC-2872	28" x 72"	2HP	3000 CFM	Optional	72 Db
DDC-3444	34" x 44"	1HP	1800 CFM	Standard	60 Db
DDC-3444-H	34" x 44"	1.5HP	3000 CFM	Standard	70 Db
DDC-3672	36" x 72"	2HP	3400 CFM	Optional	84 Db
DDC-4848	48" x 48"	2HP	3000 CFM	Standard	77 Db
DDC-4872	48" x 72"	5HP	3900 CFM	Optional	78 Db
DDC-4896	48" x 96"	5HP	4800 CFM	Optional	82 Db

TABLE FEATURES

Non-Slip Top

Our cartridge tables come standard with a rubberized non-slip table top surface.

Front Access Panel

Our DDC tables offer an easy tilt-down front access panel, for projects that require the object to hang over the front of the unit.

Locking Casters

Castors are optional, and allow for easy portability.

USA Made Blowers

Powerful, high quality blowers, made in the USA.

Cartridge Filtration

80/20 Cartridge filters, with available nanofiber options.
