

DYNAMO DOWNDRAFT TABLE GUIDE TUBE SERIES DDT-XXXX

A division of Air Cleaning Specialists, Inc.

Wood Working Tables

Dynamo Tube Series tables feature a tube filtration system, which cleans with a 99% capture rate at 1 micron. While having close to the same capture rate as cartridge filters, they have less cloth to air ratio. This makes our tub style tables great for lighter applications (finishes, fine sanding dusts, and light solid surface applications), but not adequate for heavier applications. In addition, these tables feature casters (standard) and a heavy wooden table top with a non-slip surface. NOTE: These tables are NOT to be used with any spark generating applications.

Available Sizes

MODEL #	SIZE	MOTOR/HP	CFM	Casters	Sound Level
DDT-2848	28" x 48"	1.5HP	2800 CFM	Standard	70 Db
DDT-2872	28" x 72"	2HP	3400 CFM	Standard	77 Db
DDT-2896	28" x 96"	2HP	3500 CFM	Standard	78 Db
DDT-3660	36" x 60"	2HP	3400 CFM	Standard	77 Db
DDT-3672	36" x 72"	2HP	3500 CFM	Standard	78 Db
DDT-3696	36" x 96"	2HP	3800 CFM	Standard	78 Db
DDT-4848	48" x 48"	2HP	3400 CFM	Standard	77 Db
DDT-4872	48" x 72"	2HP	3800 CFM	Standard	78 Db
DDT-4896	48" x 96"	3HP	4300 CFM	Standard	81 Db

* All tables available in 1-Phase or 3-Phase

** Optional features on all models: Exhaust Mufflers, Magnehelic Gauges, HEPA Filter Banks, 3-Sided 20" Shields

TABLE FEATURES

Non-Slip Top

Our wood-working tables come standard with a rubberized non-slip table top surface.

Tube-Style Filtration

Tube filters are ideal for wood working applications. With a capture rate of 99% at 1 micron, they are perfect for lighter duty applications.

Locking Casters

Castors come standard, and allow for easy portability.

USA Made Blowers

Powerful, high quality blowers, made in the USA.

Power Outlets

Conveniently mounted power outlets on the unit.

TABLE FEATURES

Pull-Out Dust Drawer

A convenient dust drawer is provided for simple cleaning. Large particles fall out directly through to the tray, and smaller particles can be brushed off the inside of the filter tubes.

Cleaning Brush

A stiff-filter brush is provided to clean the tubes of dust and trapped particles.

Hydraulic Arms

The table top is supported by two hydraulic arms, making for easy filter cleaning access.
