

Dust Booths

Dynamo dust booths are made for applications where items are too large for a downdraft table. Our dust booths have two standard units. The smaller (9,000 CFM) unit works great in applications using light and medium sanders with light to medium grit paper. The larger (12,500 CFM) model can be used for heavy sanding or even heavy grinding applications done with a very coarse grit paper. This model can be custom made with side openings for use in conjunction with conveyor systems.

Model #	Size	H.P.	CFM	Application	dBa's
DB-9000-6	7'T x 10'D x 6'W	5 H.P. 1 or 3 Ph	9,000	Heavy / Metal	72 dBa's
DB-9000-8	7'T x 10'D x 8'W	5 H.P. 1 or 3 Ph	9,000	Heavy to Medium	72 dBa's
DB-9000-10	7'T x 10'D x 10'W	5 H.P. 1 or 3 Ph	9,000	Medium/ Composites	72 dBa's
DB-9000-12	7'T x 10'D x 12'W	5 H.P. 1 or 3 Ph	9,000	Light / Wood	72 dBa's
DB-12500-8	7'T x 10'D x 8'W	5 H.P. 1 or 3 Ph	12,500	Heavy / Metal	72 dBa's
DB-12500-10	7'T x 10'D x 10'W	5 H.P. 1 or 3 Ph	12,500	Heavy to Medium	72 dBa's
DB-12500-12	7'T x 10'D x 12'W	7.5 H.P. 3 Phase	12,500	Medium / Composites	74 dBa's
DB-12500-14	7'T x 10'D x 14'W	7.5 H.P. 3 Phase	12,500	Light / Wood	74 dBa's
DB-16000-X	7'T x 10'D	10 H.P. 3 Phase	16,000	Very Heavy	76 dBa's
